

# PHILIP SADA

Bochum, Germany | sadaphillip@gmail.com | [philipsada.com](https://philipsada.com) | [LinkedIn](#) | [GitHub](#)

## SKILLS

---

**Web Programming Languages/Frameworks:** HTML, CSS, SASS, JavaScript (ES6+), TypeScript, PHP, Laravel, Bootstrap, Express.js, React.js, Next.js, Redux

**Web Development:** Amazon Web Services, Digital Ocean Cloud Development, Docker, WordPress, Shopify

**Web Design:** Figma, Adobe XD

**Databases:** MySQL, PostgreSQL, MongoDB

**Project Management Tools:** Jira, Trello, Zoho, Slack

**General Technical:** Object Oriented Programming, Scrum Management, Model View Controller (MVC), Git, GitHub

## PROFESSIONAL EXPERIENCE

---

### Frontend Developer, SIDES, Berlin, Germany

May 2022 – Present

- Built responsive and visually appealing frontend interfaces using SASS, Bootstrap, React.js and Next.js
- Implemented frontend solutions by fetching and utilizing APIs, enhancing user experiences and interactivity
- Conducted unit testing with Jest, ensuring the reliability and functionality of frontend components
- Worked closely with UI/UX designers to translate design mockups into interactive web elements
- Collaborated within an Agile methodology, participating in daily standup meetings, sprint planning, and retrospective sessions to optimize team workflows and project outcomes

### Full Stack Developer (Contract), Zelantic GmbH, Würzburg, Germany

April 2021 – April 2022

- Developed and maintained responsive web applications using SASS, Bootstrap, React.js, Express.js and PHP Laravel
- Implemented backend functionalities, including database interactions, authentication, and API integrations in Express.js
- Troubleshoot and resolved bugs and issues, enhancing overall application performance and user experience
- Worked closely with UX designers to translate wireframes and mockups into fully functional interfaces, implementing best practices for user interface design
- Conducted regular code reviews, ensuring code quality and adherence to coding standards, resulting in a reduction of bugs and faster development cycles

### Full Stack Developer (Internship), BeautySelf, Bochum, Germany

August 2020 – October 2020

- Collaborated in a dynamic team to develop and enhance web applications, gaining hands-on experience with a focus on Full Stack development
- Utilized React.js for building responsive and interactive user interfaces
- Worked on server-side development using Express.js to create RESTful APIs and handle backend logic
- Engaged in web design tasks using Figma, contributing to the visual aspects of projects
- Developed WordPress blog websites with Elementor, adding custom CSS code for unique design elements

## PROJECTS

---

### URL Shortener

- Developed a URL shortener application using React.js for the frontend and Express.js for the backend APIs
  - Utilized MongoDB for efficient data storage and retrieval
  - Enabled users to create shortened URLs, including a custom alias feature for personalized and easily recallable short URLs
- [Link to Project](#)

## Job Board

- Created a dynamic job board using React.js for the frontend, incorporating Tailwind CSS for a modern and responsive design
- Utilized Express.js for the backend APIs and MongoDB for efficient data storage
- Implemented user authentication for secure access to features, including creating, editing, and deleting job posts
- Introduced filtering functionality for job posts, enhancing the user experience and facilitating efficient job searches
